

LAVANYA B

COMPUTER SCIENCE ENGINEERING STUDENT | ASPIRING SOFTWARE DEVELOPER

lavanyaa1305@gmail.com | <https://www.linkedin.com/in/lavanya-babukumar-47842b373/>

PROFILE

Third-year Computer Science Engineering student with hands-on experience in Python, SQL, MySQL, and Django through academic projects. Presented two conference papers and completed NPTEL certifications, with a passion for software development and continuous learning.

PROFESSIONAL SKILLS

HTML,CSS	SQL(Basic)	C	Java
Python	Django(Basic)	C++	

EDUCATION

Bachelor of Engineering (Computer Science and Engineering)

Knowledge Institute of Technology, Salem

Sep 2024 - Present

CGPA : 8.2

Higher Secondary Certificate (HSC) - Tamil Nadu State Board

SRK Matric Hr Sec School

Jun 2023 - Apr 2024

Percentage : 91.5%

Secondary School Leaving Certificate (SSLC) - Tamil Nadu State Board

SRK Matric Hr Sec School

Jun 2021 - Apr 2022

Percentage : 80.5%

PROJECTS

Project 1: Smart Shopping with Automatic Billing System

Jun 2025 - Aug 2025

Technologies: NodeMCU (ESP8266), RFID RC522, Arduino IDE

- Developed an IoT-based smart shopping system using RFID and NodeMCU for automated billing.
- Implemented RFID-based product identification to generate bills without manual scanning.
- Integrated LCD display and buzzer for real-time user interaction and billing status. Reduced checkout time by automating the billing process.

Project 2 : Project 2: EK Academy Portal

May 2026 - Present

Technologies: Django, Python, HTML, CSS, Bootstrap, MySQL.

- Developed a web-based student management portal using Django and MySQL
- Implemented student registration, login, and contact enquiry modules.
- Designed responsive user interfaces using HTML, CSS, and Bootstrap. Managed student information securely using MySQL database.

Project 3: Urban Fix (Ongoing) AI-Powered Civic Issue Reporting Platform

Apr 2026 - Present

Technologies: Python, Django, MySQL, AI, GPS, Image Recognition

- Developing an AI-enabled platform that allows citizens to report civic issues using images and GPS location.
- Implementing automatic issue classification and department mapping for faster complaint routing. Building real-time complaint tracking and status notification features.

ACHIEVEMENTS

ICOST 2026 - 5th International Conference

Paper: Intelligent Air Pollution Forecasting Using Deep Learning and IoT-Enabled Virtual Monitoring Presented research on an AI and IoT-based air pollution forecasting system using deep learning techniques.

ICASER 2026 - 14th International Conference

Paper: An Adaptive and Explainable Hybrid Framework for Phishing Website Detection Using Random Forest Presented research on an explainable machine learning framework for phishing website detection using the Random Forest algorithm.

CERTIFICATIONS

NPTEL SWAYAM - Fundamentals of Manufacturing Processes (07/2025-10/2025)

NPTEL SWAYAM - Social Networks (01/2026-04/2026)

INTERESTS

Web Development,Machine Learning,Artificial Intelligence,

LANGUAGES
